WIENER SILBER MANUFACTUR

PASSION FOR SILVER

TRADITION

The roots of WIENER SILBER MANUFACTUR reach back to 1882. Over more than 130 years the manufactory supplied the Viennese aristocracy and high society with silver tableware and flatware. Already in the 19th century and during the entire 20th century members of the imperial and long established, aristocratic families were among the clients of the company. Today the Federal President of the Republic of Austria and his guests dine with the flatware manufactured in our company.

LEGACY

Wiener Silber Manufactur combines unique design with superior craftsmanship based on the methods of the traditional silversmiths' art and highest-quality silver. The archives of WIENER SILBER MANUFACTUR house a collection of approximately 11.000 designs and blueprints from 1882 onwards. These include masterpieces of leading artists of the „Wiener Werkstätte“, such as Josef Hoffmann, Kolo Moser and Otto Prutscher. It was in their creative period when Vienna became the artistic and intellectual centre of Europe and the cradle of new design.

MODERN DESIGN

Today, international designers and artists, such as Zaha Hadid, Erwin Wurm, Tomás Alonso, Thomas Bastide, Ted Muehling and Wolfgang Joop put their stamp on the modern collection of the tradition-rich company. The common bond they share with WIENER SILBER MANUFACTUR is their love of silver and their passion for flawless craftsmanship and innovative design.

HALLMARK

Our hallmark is the four-leafed clover. Every product that leaves our house is adorned with this symbol. It stands for the good fortune that we have with our craft and for the sense of good fortune that this work creates for others over generations and beyond cultural borders. The four-leaf clover is also available as a lovely little pendant.

SILVER

A special alloy that contains 94% pure silver, is our contribution to the innovative technology. Sterling silver only contains 92.5%. This ensures a higher value of the material and a better resistance to tarnishing.

QUALITY

Every single item of the WIENER SILBER MANUFACTUR product range which includes cutlery, tea sets, vases, trays, tumblers, bowls, etc. is manufactured by hand. We take our time with each detail and every step of the production process. The experience, precision and care that go into the work of each of our silversmiths guarantee a product of exquisite quality.
